

Brighter Journeys helps families that include an individual with special needs, complex medical needs or behavioral conditions in obtaining items **NOT COVERED BY INSURANCE OR THAT IS OUT OF FINANCIAL REACH**, but imperative to their daily life. Through our 'Going the Extra Mile Fund', we are proud to serve this community.

As someone who serves the special needs community, we are looking for your help in recommending and passing along our services to a family that will benefit.

Our Grant Form is available on our website at: [brighterjourneys.net](http://brighterjourneys.net)

Brighter Journeys is located in Luzerne County, but serves 13 counties. We host the largest annual Special Needs Egg Hunt at Mohegan Sun Pocono and we provide support and resources to the special needs community.

## Our Mission

The co-founders of Brighter Journeys, through their personal experiences, have identified the needs of families of individuals with complex medical or behavioral conditions. To address this gap, they have formed a charity to provide words of comfort, assist in directing to resources, and the intention to provide tangible support to those families.

Families that include an individual with special needs, often find difficulty in navigating through everyday life, as the world is not typically designed to meet this need. Brighter Journeys seeks to provide comfort through the caring words of experience, and when possible address requests for items not covered by medical insurance or out of financial reach of these families.

One unique quality of this foundation is that Brighter Journeys is not specific to any one disability or diagnosis. It is to brighten the journey of any individual with special needs.

Brighter Journeys: Going the extra mile for individuals with special needs and their families.
